PROFESSIONAL SUMMARY

Detail-oriented professional with 2 years of hands-on experience in software testing, now transitioning into the role of a MERN Stack Developer. Proficient in both automation and manual testing methodologies and Front End Development , I bring a unique perspective to web development with a solid foundation in ensuring product quality. My journey into Full Stack Web Development(MERN Stack)   reflects my commitment to staying at the forefront of technology. Skilled in solo and collaborative project development, My experience helps me build quality, reliable and efficient applications . Eager to leverage my testing expertise and passion for development to contribute effectively to a dynamic organization in the role of a React Developer. With a proactive approach to problem-solving and a dedication to delivering high-quality code.

EDUCATION

Full Stack Web Development Course

Masai School, Bengaluru, Karnataka
Jul 2023 - Feb 2024

B.E (Mechanical Engineering)

Ramaiah Institute of Technology, Bengaluru, Karnataka
Aug 2016 - Aug 2020

PUC

Alvas PU College, Moodubidire, Karnataka
July 2014 - June 2016

PROJECTS

1. **CodeFlow** 🐙 | 🌐
   React JS | ExpressJS | NodeJS | Chakra UI | Tailwind CSS | MongoDB
   - Led a 4-member team to develop a coding practice platform with live HTML, CSS, and JavaScript preview features.
   - Engineered contest pages for users to solve Data Structures and Algorithms (DSA) questions, submit code, and view results.
   - Implemented submission interface for users to track their submissions and view submitted code and results.
   - Orchestrated server-side logic for code compilation and result transmission, completing the project within a challenging 5-day timeframe.

2. **Travelo** 🐙 | 🌐
   HTML | CSS | JavaScript | SASS | NodeJS
   - Led a team of four members in a collaborative project completed within a tight timeframe of 5 days.
   - Developed a travel booking platform enabling users to book tickets for various adventure events such as trekking, rafting, and skydiving.
   - Implemented user authentication and ticket booking functionalities.
   - Designed and built the front-end user interface and integrated the payment page.
   - Responsible for fetching data from the backend, implementing search functionality, and designing the event booking page.

TECHNICAL SKILLS

HTML5 | CSS3 | JavaScript | React |

Redux | Git | RESTful API's | MongoDB

| Bootstrap | Tailwind | Chakra UI |

Node JS | Express JS | SQL | API

Development | Automation Testing |

JWT(JSON Web Tokens) | Selenium

3. EduSprint :octocat: | :globe_with_meridians:
HTML | CSS | JavaScript | React.JS | Redux | Chakra UI | Node JS

- Created an online educational platform, empowering users to seamlessly purchase, access, and learn from diverse courses.
- Orchestrated user authentication, refined course search, and streamlined the purchasing process for optimal user experience.
- Crafted a user-friendly front-end interface and seamlessly integrated a payment page.
- Led the retrieval of backend data, implementing advanced search and filtering functionalities. Worked on the creation of the search and cart pages, ensuring a cohesive and efficient platform.

PROFESSIONAL EXPERIENCE

Infosys, Mysore — *Test Engineer*

April 2021 - May 2023

- Performed manual and automated testing on web, mobile, and desktop applications to ensure quality and identify defects.
- Collaborated with cross-functional teams to devise testing strategies and plans. Utilized Application Lifecycle Management (ALM) software to execute test cases, document results, and track defects.
- Conducted regression testing to validate bug fixes and new features. Communicated test findings to developers and assisted in defect resolution.
- Actively engaged in daily standup meetings and test planning discussions.

SOFT SKILLS

Teamwork | Adaptability | Time Management | Effective Communication | Professionalism | Continuous Improvement

INTERESTS

VideoGames | Cooking | Reading Novels | Motorsports
